The diagram illustrates the relationship between the Hebrew letter 'א' (Aleph) and the Greek letter 'Α' (Alpha). It is divided into two panels. The left panel shows 'א' with its numerical value 1 and its use as a vowel letter in the word 'אֵל' (El). The right panel shows 'Α' with its numerical value 1 and its use as a vowel letter in the word 'ἄλφ' (Alfa).

THROMBOSIS AND HEMOSTASIS

Safety and efficacy of an anti-human APC anti-
thrombotic or congenital for deficiencies in
thrombotic models

Rebalance of coagulation and anticoagulation to achieve a hemostatic effect has recently
been achieved in an alternative thrombotic disorder, by hemostatic, for example, a
humanized thrombotic, SR604, based on a completely published marine anticoagulant
HAPC1572, which selectively blocks the anticoagulant activity of human activated protein
C (APC). SR604 effectively modulates the anticoagulant activity of APC in human plasma
deficient in various coagulation factors in vitro with efficiency ~ 100%.

SR604 exhibited
hemostatic effect
in mice with hemophilia
A and B expressing
human APC.

A stylized illustration in shades of green and purple. A woman with long dark hair, wearing a green long-sleeved top and light green pants, sits on a large solar panel. She is holding a laptop. To her left, a colorful, multi-colored umbrella is open. The solar panel is set against a backdrop of a green hill. In the distance, there are two wind turbines and a city skyline. The sky is light green with a few clouds. The overall theme is sustainable energy and technology.

The diagram illustrates a four-step process flow, likely representing a recruitment or organizational development cycle. Each step is represented by a card with an orange header and a white body, connected by orange arrows pointing from left to right.

- Step 1:** The first card features an icon of a single person inside a square frame, with a hand pointing towards it from the bottom left.
- Step 2:** The second card features an icon of a single person inside a square frame, with a magnifying glass positioned to the right, indicating a search or selection process.
- Step 3:** The third card features an icon of a group of people arranged in a hierarchical pyramid structure, representing an organizational chart or team building.
- Step 4:** The fourth card features an icon of a stack of three person cards, with a puzzle piece being placed into the bottom right corner, symbolizing integration or completion.
